SKILLS

Testing Methodologies

- Manual Testing
- Regression Testing
- Functional Testing
- Smoke Testing
- API Testing
- Integration Testing

TOOLS

- Postman (API)
- Jira (Defect Tracking)
- FireFlink
- Selenium (Java)
- TestNG

VERSION CONTROL

- BrowserStack
- SauceLab
- LambdaTest
- GitHub
- GitLab

METHODOLOGY

- SDLC
- STLC
- Agile/Scrum
- Bug Life Cycle
- Defect Life Cycle

SHIRIN FIRDOUS S

Software Test Engineer

PROFESSIONAL SUMMARY

Highly skilled Software Test Engineer with **3 years** of experience in Manual Testing, specializing in Functional, Regression, Smoke, and Sanity testing. Experienced in Defect Management, Test case design, Release validation, and Agile methodologies. Skilled in collaborating with cross-functional teams to ensure high-quality software delivery.

WORK HISTORY

Software Test Engineer

August 2023 - Current

FireFlink - Bengaluru, Karnataka

Project: FireFlink

- Performed Functional, Regression, Smoke, Sanity, and Integration testing for web-based enterprise applications across multiple environments.
- Designed, executed, and reviewed manual test cases to ensure complete test coverage and improve overall application quality.
- Collaborated with developers, DevOps teams, and business analysts to validate system functionality, reproduce issues, and resolve defects efficiently.
- Logged, tracked, and retested defects using JIRA and participated in defect management activities throughout the testing lifecycle.
- Performed backend database validation using Postman along with post-deployment sanity testing in production and performance environments.
- Used XPath and ID locators for Web Element Identification.
- Participated in Agile ceremonies including sprint planning, grooming, daily stand-ups, and retrospective meetings while contributing to QA process improvements and test coverage enhancement.

ACHIEVEMENTS

- Recognized within the QA team for reviewing test cases and ensuring adherence to quality standards and coverage requirements.
- Served as Discipline Minister in school, demonstrating leadership, responsibility, and team coordination skills.

EDUCATION

Bachelor of Engineering - 2019 in Electrical and Electronics

GSSSIETW College, Mysore, Karnataka

STRENGTHS

- Strong analytical and troubleshooting skills
- Good communication and collaboration skills
- Passionate about software quality and automation testing
- Quick learner with an adaptable mindset
- Ability to work independently and within teams

CERTIFICATIONS

Selenium Automation Certified - April 2023

QSpiders

Completed certification ensuring a strong foundational understanding of automation concepts to bridge the gap between manual and automation teams.
